Subject: Re: ND DEQ WQS revisions - suggested language for footnotes related to selenium

Hi Mario, yes, NDDEQ intends to include the "instantaneous" footnote.

Thanks for all the great wordsmithing!
Holly

Subject: RE: ND DEQ WQS revisions - suggested language for footnotes related to selenium

Holly, any feedback from ND on Karen's comment bubbles in Table 2 regarding the frequency and duration?

Mario

Hi Mario, Karl Rockeman from ND DEQ recommends the edits in red below to the language in the footnotes.

Thanks. I hope everyone's weekend was great. Talk with you soon.

Dear Holly:

How about replacing (EPA with 40CFR131)? See below.

Pete

Replace

U.S. EPA-approved site-specific water column criterion element

With

Site specific water column criterion element established under the provisions of 40CFR131

And replace

,once they are duly adopted, and approved by U.S. EPA

With

once duly established under the provisions of 40 CFR 131

Karl Rockeman

Dear Holly:

Initial impression "this is good". I will run it by Karl.

Thanks for all your help.

Hi Pete, I hope all is well!

I know your plate is full so I'll be brief. Per our conversation on Monday, attached for your review are EPA's recommended revisions to footnote 4 in Table 1 and footnote 17 in Table 2. Please let me know if you have any comments or questions.

Also, I'm putting together a summary of the discussion on Monday with NDDEQ and Office of Water. I'll send it to you once I'm done to make sure I accurately captured the discussion. I intended to send it today, but work keeps getting in the way LOL...

Thanks so much! Talk with you soon.
